w14-P1: file structures for final project

The screenshot shows the Visual Studio Code interface with the following details:

- File Explorer:** Shows the project structure under '1111-WEB-408440021'. Files include: .gitignore, demo_21.html, index.html, learning_21.html, package-lock.json, package.json, README.md, and yarn.lock.
- Code Editor:** Displays the content of index.html. The code includes:
 - HTML structure: DOCTYPE html, head (meta charset="UTF-8", meta http-equiv="X-UA-Compatible" content="IE=edge", meta name="viewport" content="width=device-width, initial-scale=1.0"), title (My Homepage), link to style_21.css.
 - A navigation ul with li items linking to ./demo_21.html (Demo) and ./project/midterm/mid-project_21.html (Midterm Project).
 - Section elements: hero, resume, works.
 - A script tag at the bottom pointing to ./js/script_21.js.
- Bottom Status Bar:** Shows the current file is main*, line 25, column 29, and other system information like battery level (11%), memory usage (5.7GB / 4.0MB/s), and date/time (下午 04:54 2022/12/11).

w14-P2: social icons using global css, and custom css

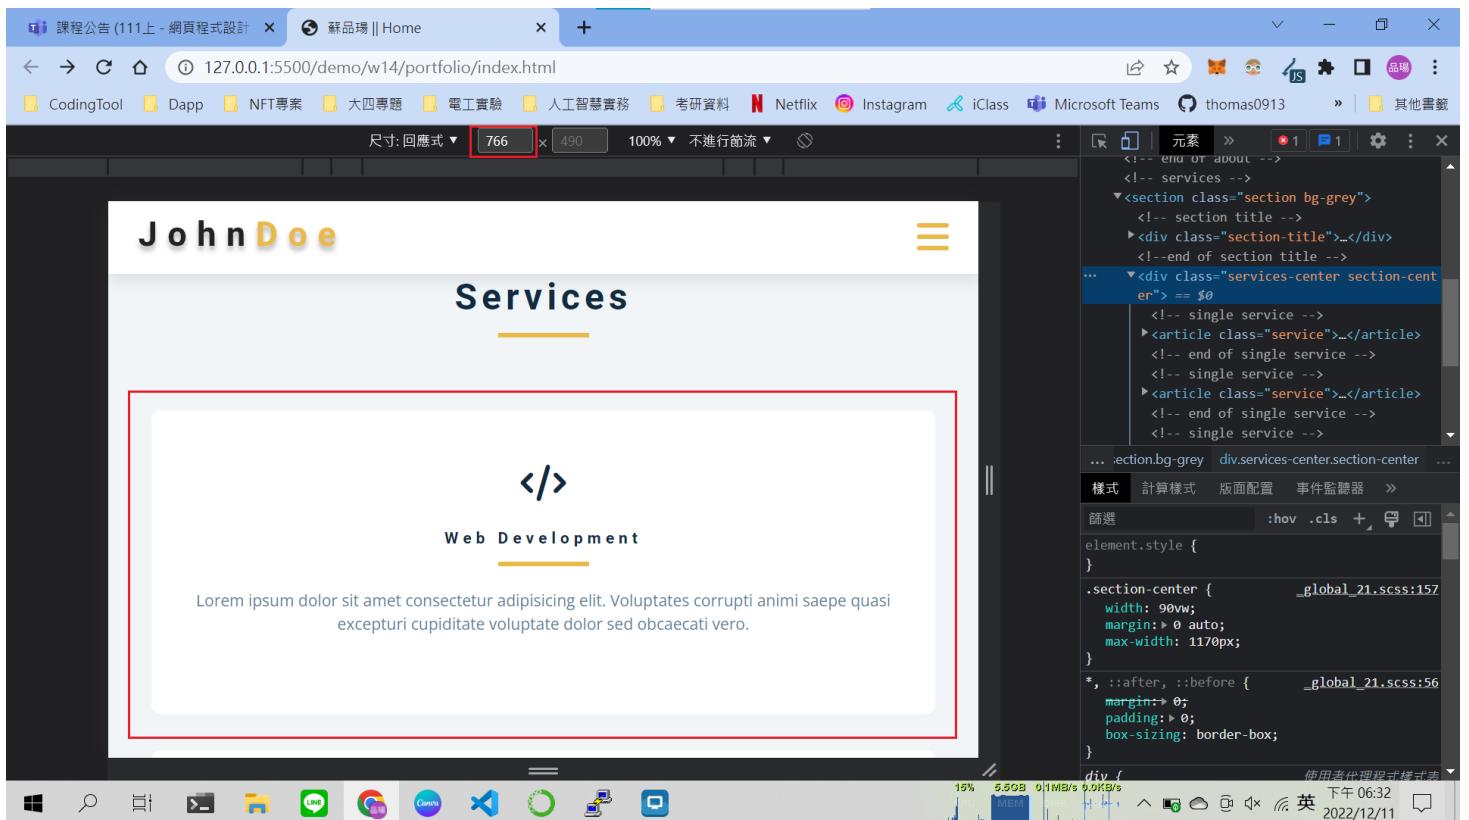

The screenshot shows the Visual Studio Code interface with three tabs open:

- `index.html`: Contains the HTML code for the hero section, including a list of social icons.
- `_global_21.scss`: Contains global CSS rules for the social icons, such as a grid layout and hover states.
- `styles_21.scss`: Contains custom CSS rules for the hero section, including height calculations and icon styling.

Red boxes highlight specific sections of the CSS code:

- A red box surrounds the global social icon styles in `_global_21.scss`.
- A red box surrounds the custom hero section styles in `styles_21.scss`.

w15-P1:nav link to about page with navbar and footer

The screenshot shows a browser window displaying a portfolio website. The URL in the address bar is `127.0.0.1:5500/demo/w15/portfolio/about_21.html`. The page title is "John Doe || About". The navigation bar contains links for "home", "about" (highlighted in red), "projects", and "contact". The main content area features a large heading "About Me". Below the heading is a paragraph of text: "Hello, I am John Doe and I am a web developer. I live and work in somewhere warm. I spend most of my day, experimenting with HTML, CSS and JavaScript (and its endless list of frameworks). I enjoy coding and the challenge of learning something new everyday. You can also find me at youtube channel [coding addict](#)". At the bottom of the page is a footer with social media icons (Facebook, Instagram, YouTube) and a copyright notice: "© 2022 John Doe. All rights reserved.". The browser's developer tools are open, showing the DOM tree and the CSS styles applied to the "about" link. The CSS code for the "about" link is highlighted in red.

w16-P1: show how to show odd number timeline

The screenshot shows two windows side-by-side. On the left is Visual Studio Code with two tabs: 'index.html' and 'styles_21.scss'. The 'index.html' file contains HTML code for a timeline, with several sections highlighted by red boxes. The 'styles_21.scss' file contains SCSS code for styling the timeline items, also with some parts highlighted. On the right is a browser window displaying a timeline with three items. Each item has a yellow circle with a number (1, 2, or 3) and a dashed arrow pointing to it from the corresponding highlighted code in the VS Code window.

```
index.html

w16-P2:connect section using clip-path

The screenshot shows two windows side-by-side. On the left is Visual Studio Code with three tabs: 'script_21.js', 'styles_21.scss M', and 'styles_21.scss'. The 'script_21.js' file contains JavaScript code for a 'connect' function. The 'styles_21.scss' file contains SCSS code for styling a video container and a banner section, with some parts highlighted. On the right is a browser window displaying a video banner with a purple rectangular overlay containing text and a button. The entire banner area is outlined with a red box.
